SPOT tracks your GPS worldwide. With the push of a button, SPOT lets you inform your contacts of your MAP location, ask for help if needed, or simply check in.

An 'SOS' button alerts the GEOS Int'l Rescue Coordination Center to summon first-responders to your exact position, anywhere in the world.

Over 450 confirmed rescues to date.

SPOT IS ABOUT PERSONAL SAFETY.

- LONE WORKER SAFETY - Forestry & Exploration. Boating. Journalism. Field Investigators.
- WORKING OUT OF REACH - in natural disasters, hurricanes, wild fires or protecting our borders.
- FOREIGN TRAVEL - where vacillating governments can turn off Cellular & Texting in a blink.

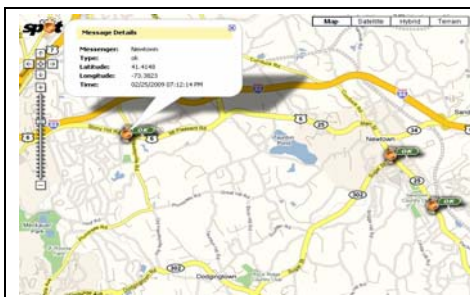

SPOT sends messages over satellite.
Works even where cell phones can't.
